

## **Anti-Microbial Burn Gel** **with Pain Relief** **First Aid Antibiotic**

This is an exclusive "Stand Alone" product and is the first of its kind. It is unique in that it contains Aloe Vera, known throughout history for its healing effect. A moisturizer and softener, Aloe Vera may be used on burns, cuts, insect stings, etc.

Burns stir up the inflammatory process that damages the surrounding tissue. They also can create "chemical chain reactions." One problem created is reduction of blood flow to the periphery of the burn. Another problem is that severe burns can suppress the immune function leading to dangerous infection.

The Aborigines of the Australian Outback have used Emu Oil for thousands of years as a deep penetrating moisturizer, and pain reliever.

Colloidal Silver is a natural antibiotic, found to kill *Pseudomonas aeruginosa*, a greenish-blue bacterium that almost always shows up in burns. The harmful bacteria release's a poison, the biggest killer in burn cases. Colloidal Silver is one of the best all-around germ fighters known. This natural antibiotic is useful in fighting hundreds of infectious conditions. The theory is that silver disables the specific enzyme that many forms of viruses, fungi, and bacteria utilize for their metabolism.

DHEA helps to slow down early signs of aging and preserves the immune function in burns.

Lidocaine HCL is a local anesthetic, which relieves the pain, while Menthol cools and soothes.

Aboriginal tribes and Australian settlers for treatment of wounds, insect bites, burns, and sunburn use tea Tree Oil. It is found to accelerate healing. Tea Tree is the world's strongest natural antiseptic.

Vitamin C is an important antioxidant that maintains collagen. It helps heal wounds and scar tissue, gives strength to blood vessels, and may provide a resistance to infections.

Vitamin E is a powerful antioxidant that protects red blood cells and also prevents fat and membrane rancidity. Vitamin E is essential in cellular respiration, which improves oxygen utilization and enhances the immune response.

Butcher's Broom is beneficial for improving peripheral circulation. It contains anti-inflammatory properties, as well as having a strengthening effect on the vessel walls.

These items are combined in the formulation for the temporary relief of pain associated with burns, sunburn, minor cuts, abrasions and skin irritations and rashes due to Poison Ivy, Poison Oak or Poison Sumac.

### **DIRECTIONS:**

Adults and children 2 years of age and older: Clean the affected area. Apply small amount of product on the area 1 to 3 times daily. May be covered with a sterile bandage.

Children under 2 years:  
DO NOT USE, consult a physician.

**Product number: 2003 (Burn Gel)**

### **INGREDIENTS:**

Aloe Vera Gel, SD  
Alcohol 39c, Lidocaine  
HCL, Glycerine-UPS,  
Triethanolamine, Oleth-  
20, Carbomer-940,  
Neomycin Sulfate,  
Camphor, Menthol, Tea  
Tree Oil, Methyl  
Paraben, Emu Oil,  
Polysorbate-80,  
Colloidal Silver, DHEA,  
Butcher's Broom  
Extract, Tocopherol  
(Vitamin-E), Ascorbic  
Acid (Vitamin-C)
